

# 107° CHAIR

## 107° 椅 | WRB01

设计理念：靠背弧度不仅是生理曲线的适配，更是对 " 坐 " 这一行为的仪式化重构。107°微倾角靠背舒适角度，既能提供足够的腰部支撑，又能保持自然坐姿，适合长时间品茶交流；皮革扣件的功能性铆接，隐喻着现代社会中理性结构与感性需求的咬合关系，其白色车线如同德勒兹的 " 逃逸线 "，在规整结构中创造视觉流动性。

Design concept: Its ergonomic arched backrest reshapes the ritual of sitting. A 107 ° tilt delivers steady lumbar support for extended tea chats. Leather buckle rivets balance structural logic and emotional comfort, while white stitching adds fluid visual rhythm to the neat frame.

设计亮点：主人椅线条简洁流畅，整体轮廓优雅大方，黑白相间的座面图案为椅子增添了一份时尚感与趣味性，使其在简约中不失个性，无论是搭配现代简约风格还是偏复古的家居环境，都能和谐融入并成为视觉焦点。

Design highlights: The owner's chair has simple and smooth lines, and the overall contour is elegant and generous. The black and white seat pattern adds a sense fashion and interest to the chair, making it unique in simplicity. It can blend harmoniously and become a visual focus whether it is matched with modern minimalist style or retro home environment.
